-

Projects

[Tales Together](#)

TalesTogether is a collaborative storytelling platform that enables users to co-create engaging narratives in real time. With features like a rating system, story archiving, and gamification, it fosters creativity and community. Built using React.js, Django, and cloud hosting, the platform ensures secure, seamless collaboration for writers, readers, and educators of all skill levels.

- Integrated API to display latest projects
- Built a real-time platform for collaborative story writing with authentication, rating, and gamification features
- Designed a responsive UI and solved challenges in real-time updates and secure user interactions

[E com Website](#)

E-Commerce Website is a responsive online shopping platform built with HTML, CSS, and JavaScript. It features product browsing, cart functionality, and a clean user interface to ensure a smooth and engaging shopping experience.

- Developed a responsive e-commerce site with product listings, shopping cart, and checkout features

- Implemented clean UI design and interactive elements for a smooth user experience
-
